Senior Project, Program & Delivery Leader | Technology Delivery & Professional Services

PMP-certified Senior Project, Program & Delivery Leader with 10+ years leading complex project and program delivery across enterprise software, SaaS/DXP, e-commerce, cloud/infrastructure, and network/cybersecurity environments. Progressed from project recovery and multi-team execution into client-facing Professional Services and, most recently, Head of Professional Services while remaining hands-on. Player-coach who builds operating cadence, governance, visibility, and cross-functional alignment to improve delivery predictability, with experience spanning SOW/commercial work, project financials, portfolio operations, capacity/resourcing, and distributed teams.

CORE STRENGTHS

- Complex project/program delivery, cross-functional leadership, recovery, RAID, critical path, UAT, and go-live
- Professional Services, client engagement/advisory, SOWs, sales-to-delivery, commercial readiness, and change control
- Portfolio governance, delivery operations, operating cadence, visibility, forecasting, and predictability
- People leadership, performance/development, staffing, coaching, mentoring, and PM enablement
- Capacity/resourcing, utilization, project financial health, stakeholder/vendor leadership, and decision framing
- Agile/Scrum, hybrid delivery, SDLC, release planning, and technical delivery coordination

PROFESSIONAL EXPERIENCE

Backbone • Burnaby, BC, Canada | Remote

Head of Professional Services (progressed from Senior Project Manager) • Contract **10/2024 – 03/2026**

- Led recovery of Longo's distressed enterprise e-commerce implementation through baseline and backlog reconstruction, planning, executive reporting, risk escalation, dependency management, and UAT/go-live coordination across 300+ tickets, culminating in production go-live.
- Led Professional Services cadence, PM support, and North America portfolio governance while remaining hands-on in client delivery and coordinating distributed teams across Canada, Colombia, Greece, and India.
- Built a Professional Services PM SOP covering project setup, readiness, RAID, reporting, QA/UAT, project financial health, and change control; assessed Greece delivery operations and produced a staged adoption roadmap; supported RFP/SOW development, solution validation, estimates, staffing, sales-to-delivery readiness, and commercial boundaries.
- Established recurring portfolio visibility through Jira, Clockify, WSRs, and capacity planning, tracking estimates, actual hours, remaining work, forecasts, variance, utilization, and margin implications.
- Led governance, incident response, recovery/reset, and formal closure/handover for Justin Alexander; supported the discovery-to-delivery transition of an AI-enabled e-commerce initiative, establishing backlog, kickoff, sprint/reporting, and dependency governance before transitioning hands-on management.

Liferay • Diamond Bar, CA, USA | Remote

Engagement Manager (Professional Services) • Full-time **10/2022 – 12/2023**

- Managed 14 customer-facing Professional Services engagements across the U.S., Canada, and the Caribbean; the client mix included Fortune 500 and other large enterprises, with budgets up to USD 300K across Liferay

DXP/LXC implementations, on-prem upgrades, cloud migrations, Discovery, Upgrade Analysis, SME/T&M, and staff augmentation.

- Drafted and negotiated 26 Statements of Work (SOWs) and partnered with Sales and Legal on scope, assumptions, commercial readiness, and sales-to-delivery handoffs, contributing to 16 closed deals.
- Coordinated concurrent engagements across customers, consultants, subcontractors/vendors, Customer Success, Practice Management, and Engineering, managing resourcing, utilization, onboarding/coverage, billing, knowledge transfer, project health, and closeout using Kantata/Mavenlink and Salesforce.
- On CNO Financial Group's BizLink Upgrade Accelerator, surfaced a critical customer-environment risk that drove a project-start postponement, then coordinated resource demobilization/remobilization, readiness blockers, a new Engineering window, and eventual handoff for upgrade execution.
- On Quest Diagnostics, temporarily assumed Project Manager responsibilities during a troubled implementation, supported scope/timeline/MVP recovery, and later led budget-overrun/profitability analysis alongside the Practice Manager.

BCNET • Vancouver, BC, Canada

IT Project Manager • Full-time **05/2020 – 05/2022**

- Maintained portfolio visibility across 79 tracked technology project records while directly coordinating assigned delivery across network infrastructure, connectivity, cybersecurity, and internal IT initiatives.
- Coordinated member-facing network connectivity and infrastructure delivery across numerous British Columbia post-secondary institutions; completed work included 13 PDU replacements and an International Student Connectivity initiative serving seven institutions.
- Coordinated Cisco Crosswork Network Insights implementation through production handover and structured NetFlow/Arbor and DDoS-mitigation work into clearer scopes, risks, and stakeholder reporting, while technical specialists retained architecture and engineering ownership.
- Improved delivery visibility and PM structure through a custom-built Microsoft Access/Power BI portfolio solution, process mapping, and Jira-template redesign; later migrated Jira Network Projects into TeamDynamix and implemented Operations Time Tracking.

Career Break — Relocation to Canada & Professional Development **04/2018 – 04/2020**

Eldorado Research Institute — Dell Computers Account • Porto Alegre, RS, Brazil

Senior Project Manager (Software Development) • Full-time **04/2014 – 03/2018**

- Led 9 enterprise software and financial-systems projects for the Dell account. Within Dell Premier Plus, led three Porto Alegre Scrum teams (27 professionals) contributing to the global B2B e-commerce program; broader cross-functional leadership reached approximately 30 people across concurrent work.
- Managed roadmaps/backlogs, schedules, risks, Dell stakeholder engagement, executive reporting, staffing, allocation, and supplier-side SOW/work-plan drafting/revisions; formal line management included a 22-direct-report evaluation/calibration scope, plus feedback, development/training planning, coaching, and support to less-experienced Project Leaders.
- Led the three Porto Alegre Scrum teams contributing to the global upgrade/migration of 20,000+ customer stores from the legacy Dell Premier e-commerce platform to a new version across Latin America, Australia, Canada, Europe, and Japan.
- As Product Owner for the Commissioning Tool, led user stories, backlog, and business-user requirements for an automation solution that reduced monthly reseller commission processing from roughly three weeks/two people to roughly two days/one person; led PPBSys delivery; the project later generated follow-on business for Eldorado.

T&T Engenheiros Associados — Hewlett-Packard Account • Porto Alegre, RS, Brazil

Project Manager (Software Development) • Full-time **04/2011 – 03/2014**

- Led supplier-side software delivery across HP CloudSystem Matrix, Capacity Advisor, and HPIO Test Automation, managing three cross-functional development, testing, and automation teams with up to 25 people in a distributed global engineering environment.
- Delivered four CloudSystem Matrix releases and two Capacity Advisor releases; managed project budgets up to CAD 3.3M and held formal people-management responsibilities including 1:1s, development plans, performance reviews, coaching, recruiting/staffing, and technical-lead development.

- Turned around a challenged Provisioning delivery environment within roughly three months by clarifying goals and roles, strengthening daily coordination, and rebuilding client trust; successful delivery contributed to contract renewal, expanded scope, and team growth from 7 to 16.
- Led Agile/Scrum delivery and team adoption of quality practices, including unit testing, code reviews, and pair programming, alongside risk/dependency tracking, backlog/defect metrics, and release/qualification governance; Provisioning production defect escape was below 2%, and the HPIO Test Automation initiative eliminated a six-week enclosure backward-compatibility test cycle.

EDUCATION

Software Product Management Specialization — University of Alberta (Coursera), Canada
BEng, Electronic Engineering — Pontifical Catholic University of Rio Grande do Sul (PUCRS), Brazil
Technical Diploma in Accounting — Protasio Alves, Brazil

CERTIFICATIONS

Project Management Professional (PMP) — PMI **| Professional Scrum Master I (PSM I)** — Scrum.org

SKILLS

Delivery & Governance: Project management, program management, technical delivery management, project recovery, portfolio governance, RAID, critical path, capacity/resource planning, stakeholder/vendor management, QA/UAT, release/go-live. **Methods & Domains:** Agile/Scrum, hybrid, Waterfall, SDLC; SaaS/DXP, e-commerce, cloud/IaaS, network infrastructure, cybersecurity. **Tools:** Jira, Confluence, MS Project, Excel, Power BI, Microsoft Access, TeamDynamix, TFS (Team Foundation Server), Kantata/Mavenlink, Salesforce, Clockify, ChatGPT, Claude. **Current practice:** AI-assisted project management, analysis, reporting, drafting, and workflow improvement. **Languages:** Portuguese (native), English (professional working), Spanish (developing).

AWARDS

Eldorado Award for Excellence for Contribution (2016) — Recognized for leadership and contribution as Project Leader
Featured Flash Award (2014) — Recognized for contribution to PPBSys

VOLUNTEERING & LEADERSHIP

PMI – Canadian West Coast Chapter — Mentor (Vancouver, BC)
PMI – Espírito Santo Chapter — Mentor (Vitória, ES, Brazil)
Douglas Toastmasters Club — Treasurer / Club Officer / Member (New Westminster, BC)
Community Leadership Programs — Instructor (Habitudes; YES! Career Direct)
