Senior Project, Program & Delivery Leader | Professional Services & Technology Delivery

PMP-certified Senior Project, Program, and Delivery leader with 14+ years of experience leading complex customer-facing software, SaaS/DXP, e-commerce, cloud, network, and cybersecurity initiatives. Combines hands-on project delivery with Professional Services leadership across project recovery, portfolio governance, client advisory, project financials, capacity planning, and commercial/SOW controls. Leads distributed cross-functional teams, translates technical and commercial realities into executive decisions, and builds practical operating models that strengthen delivery visibility and predictability.

CORE STRENGTHS

- Hands-on project, program, delivery, and Professional Services leadership
- Client consulting, trusted-advisor relationships, and executive communication
- Global multi-project delivery; WBS, dependencies, critical path, RAID, and escalation
- Project recovery, delivery stabilization, UAT, release, and go-live
- Portfolio governance, project financials, forecasting, utilization, profitability, and capacity planning
- Scope/change control, SOWs, RFPs, commercial governance, people leadership, and change adoption

WORK EXPERIENCE

Backbone • Burnaby, BC, Canada | Remote

Head of Professional Services (progressed from Project Manager) • Contract **10/2024 – 03/2026**

- Retained hands-on leadership of complex client engagements while overseeing North American Professional Services delivery operations, PM support, and portfolio governance in a lean technology company.
- Authored and evolved a Professional Services PM SOP standardizing lifecycle governance, project setup, backlog and sprint practices, reporting, decision ownership, RAID, QA/UAT, financial health, and change control.
- Improved portfolio visibility by connecting Jira, Clockify, status reporting, capacity plans, and financial controls to track estimates, actual hours, remaining effort, forecasts, variance, utilization, and margin implications.
- Helped recover a distressed enterprise e-commerce implementation for a major Canadian grocery retailer through baseline and backlog reconstruction, recovery planning, executive reporting, risk escalation, and UAT/go-live coordination across 300+ tickets and complex mobile, payment, and integration dependencies; the platform went live in December 2025.
- Led incident response, recovery/reset, closure, and handover for a digital-commerce engagement, and established discovery-to-delivery governance for an AI-enabled e-commerce initiative, aligning requirements, backlogs, sprints, architecture, and dependencies.
- Assessed the Greece Professional Services operation against the PM SOP and developed a staged adoption roadmap addressing planning, roles, reporting, QA, financial visibility, and governance across teams in Canada, Colombia, and Greece.
- Strengthened commercial controls through billability validation, change-order preparation, and support/T&M boundaries while supporting discovery, estimates, staffing, SOWs, RFPs, and sales-to-delivery readiness.

Liferay • Diamond Bar, CA, USA | Remote

Engagement Manager (Professional Services | Software Delivery) • Full-time

10/2022 – 12/2023

- Managed and executed a portfolio of 14 customer-facing Professional Services projects across the U.S., Canada, and the Caribbean; the portfolio included Fortune 500 and other large enterprise organizations, with budgets up to USD 300K, spanning implementation, SME/T&M, staff augmentation, Discovery, Upgrade Analysis, and Upgrade Accelerator engagements.
- Drafted and negotiated 26 Statements of Work (SOWs) and partnered with Sales and Legal on scope, assumptions, commercial readiness, and Sales-to-Delivery handoffs, contributing to 16 closed deals.
- Coordinated concurrent engagements across customers, consultants, subcontractors, Customer Success, Practice Management, and Engineering, managing resourcing, utilisation, onboarding, coverage, knowledge transfer, reporting, billing, and project health.
- Led cross-functional delivery involving Liferay DXP and Liferay Experience Cloud (LXC), including implementations, on-prem upgrades, cloud migrations, technical dependencies, customer prerequisites, and Consulting-to-Engineering handoffs.
- On CNO Financial Group's BizLink Upgrade Accelerator, surfaced a critical customer-environment risk that drove a project-start postponement, then coordinated team demobilization/remobilization, readiness blockers, a new Engineering window, and eventual handoff for upgrade execution.
- On Quest Diagnostics, temporarily assumed Project Manager responsibilities during a troubled implementation, helping re-establish scope, timeline, MVP/phasing, delivery cadence, and stakeholder alignment; later led budget-overrun/profitability analysis alongside the Practice Manager.

BCNET • Vancouver, BC, Canada

IT Project Manager (Network Infrastructure and Cybersecurity) • Full-time

05/2020 – 05/2022

- Managed 79 network infrastructure and cybersecurity projects, including up to 38 concurrent initiatives, delivering on time and within budget.
- Coordinated multisite infrastructure delivery across campuses of 20 post-secondary institutions, integrating their networks into BCNET's high-speed network and delivering redundant connections for reliability and performance.
- Delivered network-security initiatives using Arbor Sightline and Cisco Crosswork Network Insights, enabling advanced DDoS detection, mitigation, and operational visibility.
- Fostered a project management culture and supported the transition from on-premise Jira to SaaS TeamDynamix, improving planning, data integrity, reporting, and workflow adoption.

Career Break — Relocation to Canada & Professional Development

04/2018 – 04/2020

- Career transition while relocating to Canada; invested in professional development, leadership/communication practice, and readiness to return to senior delivery roles.

Eldorado Research Institute - Dell Computers Account • Porto Alegre, RS, Brazil

Senior Project Manager (Software Development) • Full-time

04/2014 – 03/2018

- Led 9 enterprise software and financial-systems projects, including serving as Program Manager and line manager for 3 Brazilian Scrum teams (27 professionals) within an approximately CAD 8M global B2B e-commerce program spanning Brazil, the US, India, and Ireland.
- Managed project and team roadmaps, backlogs, SOWs, risks, Dell stakeholder engagement, executive reporting, staffing, allocation, and performance within a fast-paced global program.
- Led the three Brazilian Scrum teams contributing to the upgrade and migration of more than 20,000 customer stores from the legacy Dell Premier e-commerce platform to a new version across Latin America, Australia, Canada, Europe, and Japan.
- Delivered finance and compliance solutions that reduced the reseller commission cycle from three weeks to two days, eliminated external translation costs, reduced audit risk, and generated follow-on client work; one solution received the Flash Award.

T&T Engenheiros Associados – HP Account • Porto Alegre, RS, Brazil

Project Manager (Cloud Infrastructure Software) • Full-time

04/2011 – 03/2014

- Led Brazil-based cross-functional delivery for HP CloudSystem Matrix and Capacity Advisor within a global engineering initiative spanning the Americas, Europe, and Asia, supporting cloud-infrastructure capabilities across physical and virtual provisioning, servers, storage, networking, and private/hybrid cloud environments.
- Delivered four CloudSystem Matrix releases and two Capacity Advisor releases, managing project budgets up to CAD 3.3M and leading up to 25 direct reports across development, testing, and automation teams.
- Turned around a challenged delivery team within three months by listening to the client and team, redefining goals and roles, and introducing daily coordination and visual workflow management; renewed client trust led to expanded scope and team growth from 7 to 16.
- Completed test-automation improvements that eliminated a six-week enclosure backward-compatibility test cycle, improving testing efficiency and delivery speed.

EDUCATION

Software Product Management Certificate (Specialization) — University of Alberta (Coursera), Canada

BEng, Electronic Engineering — Pontifical Catholic University of Rio Grande do Sul (PUCRS), Brazil

Technical Diploma in Accounting — Protasio Alves, Brazil

CERTIFICATIONS

Project Management Professional (PMP) — PMI | **Professional Scrum Master (PSM I)** — Scrum.org

SKILLS

Agile/Scrum; SDLC; WBS/critical path; RAID; QA/UAT; release/go-live; SaaS/DXP; e-commerce; cloud/IaaS; network infrastructure; virtualization; cybersecurity; AI-assisted project management, reporting, and workflow automation. Tools: Jira, Confluence, MS Project, Excel, Power BI, Salesforce, ChatGPT, Claude.

AWARDS

Eldorado Excellence Award — Effective leadership in a complex technology environment

Flash Award — New business prospects and process improvement

VOLUNTEERING & LEADERSHIP

PMI – Canadian West Coast Chapter — Mentor (Vancouver, BC)

PMI – Espírito Santo Chapter — Mentor (Vitória, ES, Brazil)

Douglas Toastmasters Club — Treasurer / Club Officer / Member (New Westminster, BC)

Community Leadership Programs — Instructor (Habitudes; YES! Career Direct)
