Senior Project, Program & Delivery Leader | Professional Services & Technology Delivery

PMP-certified Senior Project, Program, and Delivery leader with 14+ years of experience leading complex customer-facing software, cloud/SaaS, network infrastructure, cybersecurity, and e-commerce/DXP initiatives. Proven track record across Professional Services, consulting, and global enterprise programs, combining delivery governance, client advisory, commercial/SOW governance, resource planning, and cross-functional leadership. Recognized for building trusted relationships, bringing clarity to ambiguity, improving predictability, and translating technical and commercial realities into business outcomes.

CORE STRENGTHS

- Project, program, and Professional Services delivery leadership
- Client-facing consulting, trusted-advisor relationships, and executive communication
- Global, multi-project, and multi-workstream delivery; WBS, dependencies, and critical path
- Portfolio governance, RAID, delivery health, executive reporting, and decision management
- Project financials, forecasting, utilisation, profitability, and resource/capacity planning
- Scope/change control, SOWs, commercial governance, and Sales-to-Delivery handoffs
- Software, SaaS/DXP, cloud/IaaS, network infrastructure, cybersecurity, and multisite delivery
- People leadership, team building, change management, and influence without authority

WORK EXPERIENCE

Backbone • Remote (Burnaby, BC, CAN)

Head of Professional Services | Senior Project Manager (Software Delivery) • Contract 10/2024 – 03/2026

- Led a North American portfolio of customer-facing Professional Services engagements, owning schedule, scope, quality, risk, and commercial performance across distributed teams and workstreams.
- Managed 3 delivery PMs directly and coordinated 12 cross-functional team members, setting clear ownership, delivery cadence, and escalation paths while coaching PMs through difficult project situations.
- Built and scaled a Professional Services operating model covering SOW intake, kickoff, weekly status reporting, RAID/change control, decision logs, quality checks, UAT, client sign-offs, and PM onboarding.
- Established concise client and executive reporting on progress, risks, decisions, forecasts, utilisation/capacity, profitability drivers, delivery KPIs, and customer satisfaction.
- Partnered with Finance and leadership to review project financial health, forecasts, utilisation, capacity, scope changes, and profitability, protecting budgets and delivery commitments.
- Created portfolio resource plans that balanced skills, allocation, and capacity across concurrent projects, reducing context switching and protecting critical-path commitments.
- Built trusted client relationships by translating technical realities into business impacts, surfacing scope/timeline/quality trade-offs, and managing escalations with clear recommendations.
- Directed high-visibility e-commerce/DXP engagements across PM, engineering, QA, design, and vendors through integrated planning, backlog triage, release management, and go-live stabilization.
- Developed project plans with milestones, dependencies, release schedules, and go-live activities; proactively surfaced blockers and escalated risks with impacts, owners, and mitigation actions.

- Strengthened commercial governance through scope baselines, change orders, renewals, and upsell conversations, identifying broader customer needs with Sales and executive leadership.
- Supported pre-sales and onboarding through discovery, estimation, delivery approach, assumptions, and sign-off criteria, improving sales-to-delivery transitions and reducing downstream rework.
- Mentored project and delivery leads on planning, customer communication, risk management, stakeholder engagement, and Agile practices, improving execution consistency across engagements.

Liferay • Remote (Diamond Bar, CA, USA)

Engagement Manager (Professional Services | Software Delivery) • Full-time

10/2022 – 12/2023

- Managed and executed a portfolio of 14 customer-facing Professional Services projects across the U.S., Canada, and the Caribbean, with budgets up to USD 300K, spanning implementation, SME/T&M, staff augmentation, Discovery, Upgrade Analysis, and Upgrade Accelerator engagements.
- Drafted and negotiated 26 Statements of Work (SOWs) and partnered with Sales and Legal on scope, assumptions, commercial readiness, and Sales-to-Delivery handoffs, contributing to 16 closed deals.
- Coordinated concurrent engagements across customers, consultants, subcontractors, Customer Success, Practice Management, and Engineering, managing resourcing, utilisation, onboarding, coverage, knowledge transfer, reporting, billing, and project health.
- Led cross-functional delivery involving Liferay DXP and Liferay Experience Cloud (LXC), including implementations, on-prem upgrades, cloud migrations, technical dependencies, customer prerequisites, and Consulting-to-Engineering handoffs.
- On CNO Financial Group's BizLink Upgrade Accelerator, surfaced a critical customer-environment risk that drove a project-start postponement, then coordinated team demobilization/remobilization, readiness blockers, a new Engineering window, and eventual handoff for upgrade execution.
- On Quest Diagnostics, temporarily assumed Project Manager responsibilities during a troubled implementation, helping re-establish scope, timeline, MVP/phasing, delivery cadence, and stakeholder alignment; later led budget-overrun/profitability analysis alongside the Practice Manager.
- Managed long-running engagement governance for FHLBNY's 2023 staff-augmentation SOW, including recurring customer reporting, billing, capacity and vacation coverage, knowledge transfer, deployment planning, and account reviews.
- Built trusted customer relationships through regular checkpoints, account reviews, risk/dependency discussions, and proactive advocacy, balancing delivery needs, contractual commitments, resource constraints, and customer experience.

BCNET • Vancouver, BC, Canada

IT Project Manager (Network Infrastructure and Cybersecurity) • Full-time

05/2020 – 05/2022

- Managed 79 network infrastructure and cybersecurity projects, including up to 38 concurrent initiatives, consistently delivering on time and within budget.
- Coordinated multisite infrastructure delivery across campuses of 20 post-secondary institutions, integrating their networks into BCNET's high-speed network and delivering redundant connections for reliability and performance.
- Delivered network-security initiatives using Arbor Sightline and Cisco Crosswork Network Insights, enabling advanced DDoS detection, mitigation, and operational visibility.
- Built trusted relationships with member institutions, technical teams, and vendors, aligning requirements, risks, schedules, implementation readiness, and stakeholder expectations.
- Fostered a project management culture and led the transition from on-premise Jira to SaaS TeamDynamix, improving planning, data integrity, reporting, and workflow adoption.
- Developed comprehensive project documentation, including charters, schedules, requirements, dependencies, milestones, risk plans, and deliverables.

Career Break

04/2018 – 04/2020

- Career transition while relocating to Canada; invested in professional development, leadership/communication practice, and readiness to return to senior delivery roles.

Dell Computers • Porto Alegre, RS, Brazil

Senior Project Manager (Software Development) • Full-time

04/2014 – 03/2018

- Led 9 enterprise software and financial-systems projects, including serving as Program Manager and line manager for 3 Scrum teams (27 professionals) within an approximately CAD 8M global B2B e-commerce program involving about 300 people across Brazil, the US, India, and Ireland.
- Managed program roadmaps, backlogs, SOWs, risks, client engagement, executive reporting, staffing, allocation, and performance while preparing the three teams to join a fast-paced global program.
- Directed the global upgrade and migration of more than 20,000 customer stores from the previous Dell Premier e-commerce platform to a newly developed version across Latin America, Australia, Canada, Europe, and Japan.
- Delivered finance and compliance solutions that reduced the reseller commission cycle from three weeks to two days, eliminated external translation costs, reduced audit risk, and generated follow-on client work; one solution received the Flash Award.

HP • Porto Alegre, RS, Brazil

Project Manager (Cloud Infrastructure Software) • Full-time

04/2011 – 03/2014

- Led global delivery for HP CloudSystem Matrix and Capacity Advisor, cloud-infrastructure products supporting physical and virtual provisioning, servers, storage, networking, and private/hybrid cloud environments across teams in the Americas, Europe, and Asia.
- Delivered four CloudSystem Matrix releases and two Capacity Advisor releases, managing project budgets up to CAD 3.3M and leading up to 25 direct reports across development, testing, and automation teams.
- Turned around a challenged delivery team within three months by listening to the client and team, redefining goals and roles, and introducing daily coordination and visual workflow management; renewed client trust led to expanded scope and team growth from 7 to 16.
- Completed test-automation improvements that eliminated a six-week enclosure compatibility test cycle, improving delivery speed and quality.

EDUCATION

Software Product Management Certificate (Specialization) — University of Alberta (Coursera), Canada

BEng, Electronic Engineering — Pontifical Catholic University of Rio Grande do Sul (PUCRS), Brazil

Accounting Degree — Protasio Alves College, Brazil

CERTIFICATIONS

Project Management Professional (PMP) — PMI | **Professional Scrum Master (PSM I)** — Scrum.org
