Senior Project Manager | Technology Delivery | Project Recovery & Governance

PMP-certified Senior Project Manager with 10+ years leading complex technology delivery across enterprise software, SaaS/DXP, e-commerce, cloud/infrastructure, and network/cybersecurity. Leads project recovery, multi-team delivery, client-facing Professional Services, and portfolio governance, with responsibility across planning, scope, schedule, risk, UAT/go-live, commercial coordination, project financial health, and capacity/resourcing. Builds practical governance and visibility that help teams and stakeholders make decisions and move delivery forward.

CORE STRENGTHS

- Project/program delivery, planning, recovery, RAID, dependencies, critical path, UAT, release, and go-live
- Stakeholder/client/vendor leadership, executive reporting, people leadership/coaching, and decision framing
- Portfolio governance, delivery visibility, capacity/resourcing, forecasting, and project financial health
- Agile/Scrum, hybrid, Waterfall, SDLC, release planning, and technical delivery coordination
- Professional Services, SOWs, commercial readiness, sales-to-delivery handoffs, and change control

PROFESSIONAL EXPERIENCE

Backbone • Burnaby, BC, Canada | Remote

Senior Project Manager (Professional Services) • Contract **10/2024 – 03/2026**

- Led recovery of Longo's distressed enterprise e-commerce implementation by reconstructing the baseline/backlog, replanning delivery, strengthening executive reporting and risk/dependency escalation, and coordinating UAT/go-live across 300+ tickets through production launch.
- Led concurrent digital and e-commerce projects across distributed teams in Canada, Colombia, Greece, and India, coordinating developers, QA, UX/design, contractors, and platform specialists while managing scope, schedules, risks, dependencies, stakeholder decisions, QA/UAT, and closeout.
- Led Justin Alexander incident response, recovery/reset, and formal closure/handover; established backlog, kickoff, sprint/reporting, and dependency governance for an AI-enabled e-commerce initiative before PM handoff.
- Expanded scope to support PMs and Professional Services operations, building a PM SOP and portfolio visibility through Jira, Clockify, WSRs, and capacity planning; tracked project financial health and supported RFP/SOW and sales-to-delivery readiness.

Liferay • Diamond Bar, CA, USA | Remote

Engagement Manager (Professional Services) • Full-time **10/2022 – 12/2023**

- Managed 14 customer-facing Professional Services engagements across the U.S., Canada, and the Caribbean, including Fortune 500 and other large-enterprise clients, with budgets up to USD 300K across DXP/LXC implementations, upgrades, cloud migrations, Discovery, Upgrade Analysis, SME/T&M, and staff augmentation.
- Partnered with Sales and Legal on 26 Statements of Work and commercial readiness, contributing to 16 closed deals; managed resourcing, utilization, billing, knowledge transfer, project health, and closeout using Kantata/Mavenlink and Salesforce.
- On CNO Financial Group's BizLink Upgrade Accelerator, surfaced a critical customer-environment risk that drove a start postponement, then coordinated remobilization, readiness blockers, a new Engineering window, and handoff for upgrade execution.
- On Quest Diagnostics, temporarily assumed Project Manager responsibilities during a troubled implementation, supported scope/timeline/MVP recovery, and later led budget-overrun/profitability analysis alongside the Practice Manager.

BCNET • Vancouver, BC, Canada

IT Project Manager • Full-time **05/2020 – 05/2022**

- Maintained portfolio visibility across 79 tracked technology project records while directly coordinating assigned delivery across network infrastructure, member connectivity, cybersecurity/network visibility, internal IT, and PM/process tooling.
- Coordinated member-facing network connectivity and infrastructure delivery across numerous British Columbia post-secondary institutions; completed work included 13 PDU replacements and an International Student Connectivity initiative serving seven institutions.
- Coordinated Cisco Crosswork Network Insights through production handover and improved PM visibility/process structure through Access/Power BI reporting, process mapping, Jira-template redesign, TeamDynamix migration, and Operations Time Tracking; technical specialists retained architecture and engineering ownership.

Career Break — Relocation to Canada & Professional Development **04/2018 – 04/2020**

Eldorado Research Institute — Dell Computers Account • Porto Alegre, RS, Brazil

Senior Project Manager (Software Development) • Full-time **04/2014 – 03/2018**

- Led 9 enterprise software and financial-systems projects for the Dell account, including three Porto Alegre Scrum teams (27 professionals) contributing to Dell Premier Plus's global upgrade/migration of 20,000+ customer stores; broader cross-functional leadership reached approximately 30 people across concurrent work.
- Managed roadmaps/backlogs, schedules, risks, stakeholder engagement, executive reporting, staffing/allocation, and supplier-side SOW/work-plan revisions; formal line management included a 22-direct-report evaluation/calibration scope plus feedback, development planning, coaching, and support to less-experienced Project Leaders.
- As Product Owner for the Commissioning Tool, led backlog, user stories, and business-user requirements for an automation solution that reduced monthly reseller commission processing from roughly three weeks/two people to roughly two days/one person; also led PPBSys delivery, and the project later generated follow-on work for Eldorado.

T&T Engenheiros Associados — Hewlett-Packard Account • Porto Alegre, RS, Brazil

Project Manager (Software Development) • Full-time **04/2011 – 03/2014**

- Led supplier-side software delivery across HP CloudSystem Matrix, Capacity Advisor, and HPIO Test Automation, managing three cross-functional teams with up to 25 people and formal people-management responsibility; delivered four CloudSystem Matrix releases and two Capacity Advisor releases and managed project budgets up to CAD 3.3M.
- Turned around a challenged Provisioning delivery environment within roughly three months by clarifying goals and roles, strengthening daily coordination, and rebuilding client trust; successful delivery contributed to contract renewal, expanded scope, and team growth from 7 to 16.
- Led Agile/Scrum delivery and adoption of unit testing, code reviews, and pair programming alongside risk/dependency, backlog/defect, and release/qualification governance; Provisioning production defect escape was below 2%, and HPIO Test Automation eliminated a six-week backward-compatibility test cycle.
